

## TUTORING AND PROGRAM OFFERINGS CAREER PATHWAYS ACADEMY

---

Career Pathways Academy is committed to offer programs to help students to achieve success in school. As a parent, I will help my child to actively participate in the programming that you choose. My child would like to participate in the following activities:

### STUDY SKILLS

Study skills is an opportunity for students to receive homework help and study skills, four days a week. Classes are scheduled at 5:30 p.m. and can be adjusted with mutual consent of the tutor. The student needs access to their computer, the internet and their homework assignment.

### RUNNIN' FORCE BASKETBALL CLUB (RFBC)

To ensure youth are not only intellectually, socially, emotionally, and physically healthy, CPA will provide the Runnin' Force Basketball Club. This program will begin in April of 2021 and we plan on playing in local One Day Shootout events in Kenosha. Let us know your child's interest. This will be provided at NO cost.

### GARDENING

To help with healthy living, we will also include as part of CPA a gardening program to teach basics of raised gardening, hydroponics, maintenance, and harvesting. This will be another activity considered part of our sports program. The course will be remote and "hands on". Students will be able to plant and harvest vegetables. This will begin in May of 2021.

### STANDARDIZED TEST PREPARATION

Students will be assisted in preparing for the MAP test. Areas of deficiency in math or language arts will be addressed in the preparation for testing.

## Future Offerings – September of 2021

### ACADEMIC ENRICHMENT (AE)

This program begins with an assessment of each youth's learning style and then customizes a tutoring and mentoring approach that corresponds to the students' learning style. This program is planned to begin in September of 2021

### SOCIAL - EMOTIONAL LEARNING (SEL)

CPA will provide SEL to help youth understand and manage their emotions. The goal of this program is to help the student improve classroom engagement and peer interaction. This program is planned to begin in September of 2021.

## CAREER DEVELOPMENT (CDP)

CPA's Career Development Program is introduced in conjunction with the Educational Enhancement Program in that Career Development assesses the career aptitude of youth consistent with the students' future career goals and helps the student develop an appropriate academic plan going forward.
